Tony,

Attached for your review is the draft charge for the Ozone IRP. An early draft of the IRP is also included for reference purposes. As the IRP will be a consultation and not a peer review, only individual advice (not consensus advice) will be provided. As such, these are not "charge questions" as we normally define them, but rather "discussion areas" which OAR is requesting the CASAC to focus on. They are organized by chapter, so we can still assign CASAC members to lead the discussions of each Chapter/discussion area, but we will not have lead authors. Please let me know if you have any comments/edits on the charge/discussion areas.
